

A Whole New Generation of Organized.

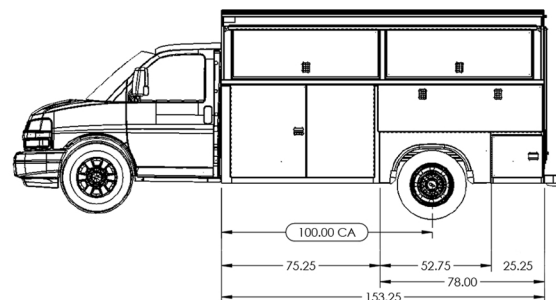

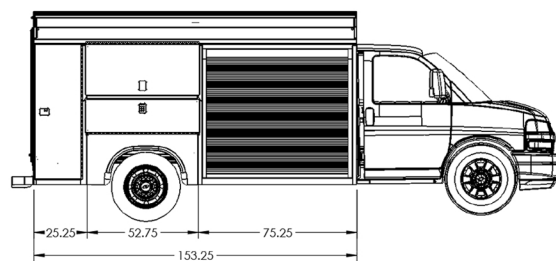

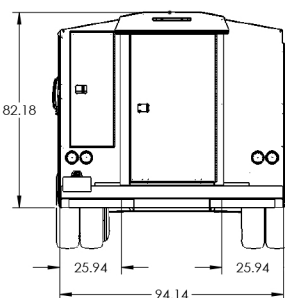

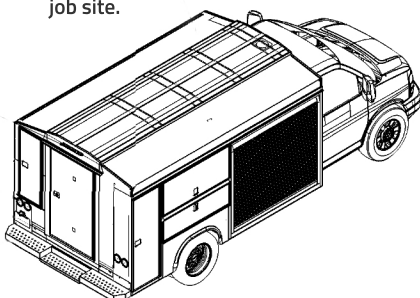

More Payload, More Versatility, More Affordable.

A place for everything and everything in it's place.

► **All New Design**

Looking for the most versatile enclosed utility body in the industry? Look no further. The Gorilla Truck Box is essential equipment among the professional carpet cleaner, restoration contractor, HVAC/plumbing, electrical, construction, utilities and telecommunications companies all over the US.

- Built on a Chevy cutaway body with two sizes of trucks available. Chevy 3500 12,300 GVWR with a 4,112 lb. payload or Chevy 4500 14,200 GVWR with a 6,123 lb payload.
- With the Gorilla Truck Box G2 side accessible compartments enables you to sufficiently organize your tools and equipment without having to crawl in the back of the truck, which directly translates into better efficiency and productivity on the job site.

► **Highlights**

Gorilla G2 utility bodies feature side accessible storage compartments and an oversized cargo area with the option of locking all door with the push of a button to maximize security. A big part of your livelihood is your tools and equipment. You need a utility truck box that is set up the way you work. Putting together the ideal work truck will make you more productive and efficient and contribute more to your bottom line.

- The passenger side of the truck has a large 69" wide roll up door that gives you the versatility to permanently mount your equipment or store large equipment for installation on location.
- The rear of Gorilla G2 truck features two doors, one large 34" wide door that access the large cargo area and a smaller rear access door that enables the technician to store longer items over 12 feet in length or store equipment of your choice.

► **Versatile, & Affordable**

The Gorilla Truck Box G2 is more versatile. Designed to fit the needs of most contractors.

- Custom shelving with removable compartment cases can be designed to fit your needs. Gorilla Truck Box shelving packages for HVAC, plumbing, electrical, and construction contractors turns your truck into a mobile warehouse for all your resale parts. Think of the time and money wasted chasing parts, never again with Gorilla Truck Box with up to 170 individual bin compartments that can be labeled for quick access to your parts inventory, saving you time and money.
- So, if you're looking for organization, efficiency and productivity that will add to your bottom line, then the Gorilla G2 is vital to your success. All the other competitors are just trucks with shelves.
