## 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**

Wear appropriate protective equipment and clothing during clean-up. Wear eye/face protection.

**Methods and materials for containment and cleaning up**

Caution – spillages may be slippery.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas.

Small spills: Wipe up with absorbent material (e.g. cloth, absorbent wipes). Clean surface thoroughly with water to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions**

Do not release into the general environment (see section 12). Avoid discharge into areas not consistent with package labeling.

## 7. Handling and storage

**Precautions for safe handling**

Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**

Store in original tightly closed container. Do not store in extreme temperature conditions.
